DOW TECHNOLOGIES WINS FOUR QUEST FOR QUALITY AWARDS

Wins Prestigious Industry Awards Second Year in a Row

TAMPA, Fla. (March 28, 2022) – – DOW Technologies, the leading independently owned technology distributor, was recently awarded four Quest for Quality Awards in CE Pro's 12th annual competition. DOW received awards in this prestigious competition for the second year in a row.

CE Pro's Quest for Quality Awards recognize the services offered by distributors and manufacturers that supply custom integrators. The Awards are open to distributors across the nation with winners determined by votes from CE Pro's readers.

DOW Technologies won a first place Platinum Award for the Best Customer Service category. This was an improvement from the Silver award that DOW won in the category the prior year. DOW won Gold Awards for the Best Technical Support and Best Supply Chain Response categories. In the Best Shipping Policies category, DOW was awarded the Silver Award. This year DOW also received "Category Kudos" acknowledgment (those who performed well in the voting) in three categories: Best Website, Best Training Programs, and Best Dealer Programs/Incentives.

"We're very excited to have taken the Platinum Award in the Best Customer Service category this year," stated senior vice president Dave Elkin. "Our focus has always been on providing top level service as a significant differentiator for why integrators partner with DOW. This reinforces the great effort our team has made in this difficult environment."

"It is a true honor to have been recognized again in this year's Quest for Quality Awards," stated president & ceo John Yodzis. "With the difficulties we're all facing in the industry, our team is working really hard to support dealers with deeper inventory, knowledgeable technical support, and fast shipping. We've made a lot of beneficial changes over the past year, and we're going to continue innovating and striving to be the best."
